

ATM Outsourcing Overview

Banks, credit unions and retailers have embraced the ATM outsourcing model in a big way. As pioneers of ATM outsourcing, CashTrans has mastered this approach and offers an unequaled package of benefits:

- No capital investment and minimal financial commitment.
- Improve service by delivering maximum ATM availability to customers.
- Promote name recognition with company branding.
- Reduce employee overhead, compliance and risks.
- Create new income streams based on location, usage and offerings.
- Eliminate the distraction of managing ATMs and focus energy on core business and strategic activities.

At CashTrans, our outsourcing model can consist of all or some of the below elements as we custom design the best solution for you!

- ✓ ATM Hardware
- ✓ ATM Driving
- ✓ ATM Processing
- ✓ On-going Maintenance Service
- ✓ On-going Monitoring Service
- ✓ 800 Number to Report Problems
- ✓ Operating Software for Institution
- ✓ Online Daily and Monthly Reporting
- ✓ Optional Cash Replenishment

Since 1996, **CashTrans** has specialized in the deployment of cost efficient ATMs and has provided unparalleled processing services for independent financial institutions and small businesses. Our program consists of a complete full-service solution with both "Help Desk," "On-Site Service" and transaction processing. All equipment is serviced by Certified ATM Technicians strategically located to offer the fastest response time possible. **CashTrans** is committed to maintaining its leadership and to providing the latest technologies available in the industry today.

"We will earn your business everyday!"
