CashTrans Supports Douglas County Tax Office with Advanced ATM Solution

Douglasville, GA – CashTrans has developed a “turn-key ATM solution” for the Douglas County Tax Office located at the Douglas County Courthouse. This ATM was installed to meet the needs of the county and its citizens visiting the courthouse. Government related ATM sites are growing in demand as ATMs remain a key convenience channel. While credit and debit cards usage has grown substantially in recent years the access to cash still remains “king” according to recent studies.

“We researched our options of adding convenience and found the ATM program offered by CashTrans was perfect for our needs,” stated Todd Cowan, Douglas County Tax Commissioner. “The proof that the CashTrans solution was the right decision is the tremendous usage volume by our citizens visiting the court house. I recommend CashTrans as a highly professional and responsive partner,” continues Mr. Cowan.

“We have extensive experience in providing ATM outsourced solutions to a wide variety of government locations to extend convenience to county citizens,” stated Fred Ethridge, President of CashTrans. “Working with Douglas County and Todd has been our pleasure and we stand ready to serve any additional ATM needs that they may have,” continues Mr. Ethridge.

For other interested Tax Commissioners, the only elements necessary to offer ATM services is a convenient location with access to a 110 volt outlet and a dedicated phone line. CashTrans provides everything else including; installation, service, maintenance, cashload, reporting, transaction processing and monitoring.
