**Miami Postal Service Credit Union Partners with  
CashTrans to Upgrade and Manage their ATM Fleet!**

**Miami, FL.** – Miami Postal Service Credit Union has selected CashTrans to upgrade and help manage their entire ATM fleet. This partnership required no capital investment by Miami Postal Service and virtually all services will be managed by CashTrans except cash replenishment. With rising equipment costs, increased compliance and oversight, this managed services outsourcing program is a great option for many credit unions across the country. In addition, the management of Miami Postal Service has the capabilities of offering advanced ATM deposit automation with bulk cash and bulk check “envelope-less” deposits at many of the new ATM locations.

“This partnership with Miami Postal Service delivers high quality ATM solutions both to the credit union and more importantly to its members,” states Blakely Brown, Account Executive of CashTrans. “Financial Institutions today are under increasing pressure to better manage capital, costs, efficiencies and offer superior member services which I am delighted that this program delivers,” continued Ms. Brown.

“We are very pleased with our new ATM managed program which includes a mix of new advanced ATMs and cash dispense ATMs. Our goal is to deliver superior convenience, service and speed to our members and we feel this program meets those goals. An added bonus is that management can allocate the time formerly spent on managing ATMs to more productive areas,” states Jace Reyes, CEO, Miami Postal Service Credit Union.
