## Shredding Services vs. Shredding at the Source

If you outsource, you relinquish control of your security program.

- You cannot delegate document security. The legal responsibility to maintain confidentiality remains with your business, not the shredding service.

Risks to your company's integrity.

- Your company hires employees based on its standards of integrity, which likely differs from the shredding services.
- Consider the damages, loss and ULTIMATE costs to your company if its confidential documents are handled with wrong intentions.

Compare the cost savings by shredding at YOUR source.

- Outsourcing is a constant expense that never decreases due to inevitable economic factors.
- Purchasing a Destroyit Shredder saves your company money AND keeps your company in control of document security.

### COST COMPARISON

Based on Cost  
Per Minute

• Time to collect and shred	15 minutes
• Cost per minute	\$5.00
• Cost per week	\$75.00
• SERVICE COST PER YEAR (52 WEEKS)	\$3,900.00
