

## ADA ATM Compliance Site Surveys

CashTrans provides support for our clients seeking help in evaluating their ATM fleets regarding the **Americans with Disabilities Act Accessibility Guidelines**. For a nominal fee, CashTrans sales and service management will visit each branch or ATM location and conduct a detailed inspection of the ATM equipment.

**Section 707 of ADAAG states that ATMs installed after March 15, 2012 must meet the following specifications:**

- Keypads, Newton's of force (22.2), reach ranges, clear floor space stay almost the same.
- Maximum elevations recede from 54" to 48".
- Audio services become prescriptive and specific.

**Every financial institution will need to conduct ATM site surveys to insure they are in compliance and we can help!**

There are 3 elements associated with the CashTrans Site Survey program:

- ✓ The **first element** of the survey is to **determine if the ATM is in compliance with the Americans with Disabilities Act Guidelines** released on September 15, 2010, which requires all financial institutions, regardless of size, to comply with various accessibility specifications for their ATM fleets by March 15, 2012.
- ✓ The **second element** of the survey will **outline any changes that will need to be made to bring the ATM into compliance.**
- ✓ The **third element** is that we will be happy to provide any assistance as needed.

# Americans with Disabilities Act Accessibility Guidelines

## □ What are the changes?

- **These modifications are not retrospective** and machines installed to the 1991 specification before 3/15/12 are compliant.
- **A lower maximum height of interoperable device from finished floor is 48"** which represents a 6" drop from pre-existing allowance.
- **Audio Services specification** requires private audio output and Braille instruction for activation plus expedited service, repetition, and volume control.

## □ What are the Key Dates?

- ❖ **Americans with Disabilities Act Accessibility Guidelines were released on September 15, 2010 and are available at [www.doj.gov](http://www.doj.gov).**
- ❖ **Compliance with accessibility specifications is by March 15, 2012.**
